

Nantes Métropole's Public Algorithm Registry — France's First Open-Sourced Municipal Algorithms

AI in the Public Sector · Good practice · France

Quality score: 53/100

Evidence strength: Moderate

Summary

Nantes Métropole became the first French metropolitan authority to publish the source code of algorithms it uses — water and transport low-income tariff calculators — fulfilling a 2019 data-charter pledge and a July 2020 legal transparency duty.

Key dimensions

Dimension	Score
Evidence of impact / measured public value	1/3
Transparency, fairness & accountability	2/3
Transferability / demonstrated replication	2/3
Scalability beyond pilot	1/3
Governance, capability & sustainability	2/3
