

Net Pracharat – Village Broadband Internet Project

Digital Inclusion · Good practice · Thailand

Quality score: 92/100

Evidence strength: Observational / pre–post

Summary

Thailand laid fibre broadband to 24,700 rural villages, paired with cascade digital-literacy training reaching 1.2 million people by 2018 and 13.6 million Wi-Fi users by 2025 - though research finds rural elderly still lag far behind in digital skills.

Key dimensions

Dimension	Score
Innovation level	3/5
Sustainability (ongoing)	1/1
Evaluation evidence	1/1
