

Observatorio de Accesibilidad Digital — Uruguay's Six-Monthly Open-Data Accessibility Measurement

Digital Inclusion · Good practice · Uruguay

Quality score: 92/100

Evidence strength: Strong

Summary

AGESIC audits Uruguayan state websites and transactions every six months and publishes the results as an open visualiser and open datasets. In October 2025, 48% of institutional portals had reduced errors — but only 31% of 16 disability-oriented transactions conformed.

Key dimensions

Dimension	Score
Innovation level	3/5
Sustainability (ongoing)	1/1
Evaluation evidence	1/1
Demonstrated reach	1/1
Documented learning	1/1
