OLGA — OLG Stuttgart's AI Assistant That Sorts Thousands of Diesel-Scandal Appeals for Judges

AI in the Public Sector · Good practice · Germany

Quality score: 53/100

Evidence strength: Moderate

Summary

Since late 2022 OLGA, built by IBM with the Stuttgart appeal court's diesel senates, extracts judge-defined parameters from long briefs and groups 13,000+ pending appeals. The state reports major time savings, but no independent measured evaluation.

Key dimensions

Dimension	Score
Evidence of impact / measured public value	2/3
Transparency, fairness & accountability	1/3
Transferability / demonstrated replication	1/3
Scalability beyond pilot	2/3
Governance, capability & sustainability	2/3
