

Open Development Cambodia: Aggregated Open Data Platform for Land & Development Transparency

City Innovation Library · Good practice · Cambodia

Quality score: 43/100

Evidence strength: Descriptive / self-reported

Summary

A Phnom Penh non-profit maps scattered land-concession, mining and hydropower data on one open platform. A GovLab case study links its dataset to a ~1-million-hectare government rollback of inactive land concessions; it still runs today with ~6,900 datasets.
