

Orø-Margrete Forest — EcoTree's Biodiversity-Led Farmland-to-Forest Conversion (Denmark)

PES & Nature-Based Solutions · Good practice · Denmark

Quality score: 33/100

Evidence strength: Cautionary / limited

Summary

EcoTree, a Brest-based forestry-investment platform, converted 10 hectares of former farmland on the Danish island of Orø into a mixed, irregular forest, planting 40,000 trees across ten species since 2023.

Key dimensions

Dimension	Score
Carbon — sequestration / storage, evidenced	1/3
Biodiversity — conservation / improvement, evidenced	1/3
Water & soil — retention, infiltration, erosion control	1/3
Fire resilience — risk reduction, evidenced	0/3
Governance, certification & transferability	2/3
