

Pair Search — GovTech's AI Research Engine for Singapore's Parliamentary and Legal Archives

AI in the Public Sector · Good practice · Singapore

Quality score: 53/100

Evidence strength: Moderate

Summary

GovTech's Open Government Products team built Pair Search, a hybrid keyword-and-semantic AI engine over 30,000+ Hansard records since 1955, letting policy officers trace legislative precedent fast; early data show ~150 daily users and 84% of clicks landing in the top 10 results.

Key dimensions

Dimension	Score
Evidence of impact / measured public value	2/3
