

Points of Invincibility — Ukraine's Nationwide Offline-First Power & Connectivity Network for Wartime Blackouts

Digital Inclusion · Good practice · Ukraine

Quality score: 72/100

Evidence strength: Strong

Summary

Within days of Russia's November 2022 infrastructure strikes, Ukraine built a nationwide network of heated, powered hubs offering electricity, water, mobile signal and internet during blackouts — now over 10,600 points strong.

Key dimensions

Dimension	Score
Innovation level	3/5
Sustainability (ongoing)	1/1
Evaluation evidence	1/1
Demonstrated reach	1/1
