

Poland's Accessibility Certificate — Linking Digital, Architectural & Information Accessibility to a Disability-Fund Discount

Digital Inclusion · Good practice · Poland

Quality score: 52/100

Evidence strength: Moderate

Summary

Poland's 2019 law created a voluntary certificate covering architectural, digital and information accessibility together, audited by accredited bodies. Certified employers can cut PFRON disability-fund contributions to 5%, but only 29 had certified by mid-2026.

Key dimensions

Dimension	Score
