

Poland's Uniform Anti-Plagiarism System (JSA) — National AI-Text Detection Infrastructure for University Theses

AI in Education · Good practice · Poland

Quality score: 67/100

Evidence strength: Observational / pre–post

Summary

Since 2019 Poland has required every university to screen theses through JSA, a free national anti-plagiarism system used by 400+ institutions and 100,000+ users. A Feb 2024 update added AI-text detection, though officials stress it cannot replace supervisor judgement.

Key dimensions

Dimension	Score
Evidence of learning impact	1/3
Equity & inclusion	2/3
Transparency, ethics & data protection	3/3
Teacher capability & pedagogy	1/3
Scalability & sustainability	3/3
