

PretorlA — Colombia's AI Case-Triage System for Constitutional Rights Litigation

AI in the Public Sector · Good practice · Colombia

Quality score: 67/100

Evidence strength: Descriptive / self-reported

Summary

Colombia's Constitutional Court uses an NLP tool, PretorlA, to identify and cluster priority cases among 600,000+ annual constitutional-rights filings, cutting case-selection time from 96 days to about two minutes; no independent accuracy figure has been published.

Key dimensions

Dimension	Score
Evidence of impact / measured public value	2/3
