

PREVENT — Romania's AI system for early detection of conflicts of interest in public procurement

AI in the Public Sector · Good practice · Romania

Quality score: 73/100

Evidence strength: Observational / pre–post

Summary

Romania's ANI automatically cross-references procurement officials' identities with registered bidders before contracts are signed; over 100,000 procedures worth RON 72 billion screened, €108 million in suspect contracts blocked, undisclosed conflicts fell 52% within 2.5 years.

Key dimensions

Dimension	Score
Evidence of impact / measured public value	2/3
Transparency, fairness & accountability	2/3
Transferability / demonstrated replication	2/3
Scalability beyond pilot	2/3
Governance, capability & sustainability	3/3
