

# Programme for helping adult and senior citizens of marginalized rural areas in developing their digital competences and ICT skills.

Digital Inclusion · Good practice · Hungary · Local

Quality score: 72/100

Evidence strength: Descriptive / self-reported

## Summary

Aims: In remote areas of Hungary, like the village and smaller vicinity of Alsómocsolád, active or inactive adults and seniors do not have the knowledge and the skills for using ICT even at the telecentre (only with the help of telecentre operators). This program aims at developi

## Key dimensions

| Dimension                | Score |
|--------------------------|-------|
| Innovation level         | 3/5   |
| Sustainability (ongoing) | 1/1   |
| Evaluation evidence      | 0/1   |
| Demonstrated reach       | 1/1   |
| Documented learning      | 1/1   |

Evaluated by MEDICI consortium
