PTS's First Cross-Sector Web Accessibility Measurement — Sweden Tracks 576 Public and Private Sites Before and After the European Accessibility Act

Digital Inclusion · Good practice · Sweden

Quality score: 88/100

Evidence strength: Strong

Summary

Sweden's PTS measured 576 websites in nine sectors in April and October 2025, either side of the European Accessibility Act. 93% of public sites but only 57% of private ones had few automatically detected errors. Grocery e-commerce got worse (+43%).
