

Puerto Rico's DEPR Scales Microsoft Copilot to 220,000+ Students — AI-Assisted IEPs Support Students with Disabilities

AI in Education · Good practice · Puerto Rico

Quality score: 60/100

Evidence strength: Descriptive / self-reported

Summary

Puerto Rico's Department of Education rolled out Microsoft Copilot to 20,000+ teachers and 220,000+ students, cutting assessment-writing time from an hour to 15 minutes and using AI to draft individualized education plans and dual assessments for neurodivergent students.
