

RATA — Disability-Led Coding, IoT & Assistive-Tech Training in Rwanda

Digital Inclusion · Good practice · Rwanda

Quality score: 72/100

Evidence strength: Strong

Summary

Rwandan NGO RATA trains young people with disabilities in coding, IoT and robotics alongside assistive-technology use; its first cohort graduated 20 certified coders with visual and hearing impairments in December 2025, backed by new philanthropic partners.

Key dimensions

Dimension	Score
