

Registre d'Algorismes — Catalonia's Public Registry of Government AI Systems and Algorithms

AI in the Public Sector · Good practice · Spain

Quality score: 73/100

Evidence strength: Strong

Summary

Catalonia's regional government launched a public registry of the AI systems and algorithms its administration uses, going beyond EU AI Act rules to cover limited-risk and deterministic tools too. It opened with 31 published systems, documenting purpose, data, risks and status.

Key dimensions

Dimension	Score
Evidence of impact / measured public value	1/3
Transparency, fairness & accountability	3/3
Transferability / demonstrated replication	2/3
Scalability beyond pilot	2/3
Governance, capability & sustainability	3/3
