

Registre National Unique — Senegal's Algorithmic Targeting System for Family Security Grants

AI in the Public Sector · Good practice · Senegal

Quality score: 60/100

Evidence strength: Observational / pre–post

Summary

Senegal's DGPSN uses a proxy-means-test score from the Registre National Unique to target Family Security Grants, reaching 355,013 beneficiaries in Q1 2026 — the World Bank calls its coverage Africa's largest, though informal-sector exclusion persists.

Key dimensions

Dimension	Score
Evidence of impact / measured public value	2/3
Transparency, fairness & accountability	1/3
Transferability / demonstrated replication	2/3
Scalability beyond pilot	2/3
Governance, capability & sustainability	2/3
