

Registro Social de Hogares — Chile's algorithmic social-benefit targeting system

AI in the Public Sector · Good practice · Chile

Quality score: 73/100

Evidence strength: Observational / pre–post

Summary

Chile's RSH algorithm classifies 8.99 million households (85.6 % of the population) into socioeconomic tiers that gate access to all means-tested state benefits. Biweekly updates since 2023; 779,000 households newly eligible after November 2023 recalibration.

Key dimensions

Dimension	Score
Evidence of impact / measured public value	2/3
