

Regulatory Reset — New York State's AI-Assisted Review of Outdated Rules

AI in the Public Sector · Good practice · United States of America

Quality score: 60/100

Evidence strength: Descriptive / self-reported

Summary

Governor Hochul's Executive Order 61 directed New York agencies to use Stanford RegLab's AI to scan 18 million words of state rules; a first package of 50 actions across 22 agencies is projected to save residents tens of millions of dollars and over a million hours yearly.

Key dimensions

Dimension	Score
Evidence of impact / measured public value	2/3
Transparency, fairness & accountability	2/3
Transferability / demonstrated replication	1/3
