

SALER — Valencia's Rapid Alert System for Fraud and Conflict-of-Interest Risks in Public Spending

AI in the Public Sector · Good practice · Spain

Quality score: 33/100

Evidence strength: Cautionary / limited

Summary

Valencia's internal-control body runs algorithmic queries over payments, contracts and subsidies to raise early fraud alerts. The initial version is in production, but no detection or recovery figures are published.

Key dimensions

Dimension	Score
