

Satu Data Indonesia — Harmonising Fragmented Government Data Under One National Portal

City Innovation Library · Good practice · Indonesia

Quality score: 48/100

Evidence strength: Observational / pre–post

Summary

Indonesia's Satu Data portal launched Dec 2022 with 136,501 datasets, harmonising fragmented ministry- and province-level statistics. Within a year, 58% of ministries and 68% of provinces had linked data — though reporting flagged the shared 'marketplace' still needed more data.

Key dimensions

Dimension	Score
Evidence of impact / measured results	1/3
Transferability / demonstrated replication	1/3
Scalability	2/3
Sustainability / continuity	1/3
Innovation	2/3
Inclusiveness / equity	1/3
Multi-stakeholder collaboration	2/3
