

SENAE's Palantir Platform — Ecuador Customs Reports \$9.5M in Seizures From AI Risk-Profiling in First 100 Days

AI in the Public Sector · Good practice · Ecuador

Quality score: 60/100

Evidence strength: Descriptive / self-reported

Summary

Ecuador's customs authority (SENAE) deployed a Palantir AI/data-analytics platform in May 2025 to risk-profile import/export declarations. In its first 100 days, SENAE reports \$9.5M in contraband seizures, \$1.17M in prevented fiscal loss, and over 90% of declarations screened.

Key dimensions

Dimension	Score
Evidence of impact / measured public value	2/3
Transparency, fairness & accountability	1/3
Transferability / demonstrated replication	2/3
