

Sierra Leone's AI-Assisted Digital Asset Declaration System — Anti-Corruption Commission and DSTI Target Public-Official Compliance

AI in the Public Sector · Good practice · Sierra Leone

Quality score: 47/100

Evidence strength: Observational / pre–post

Summary

Sierra Leone's Anti-Corruption Commission and Directorate of Science, Technology & Innovation built an AI-assisted digital platform for public officials to declare assets, with analytics meant to flag inconsistencies; over 17,000 officials complied in its first full cycle.

Key dimensions

Dimension	Score
