

Sinapses — Brazil's Mandatory National Registry and Risk-Audit Platform for Judicial AI

AI in the Public Sector · Good practice · Brazil

Quality score: 87/100

Evidence strength: Descriptive / self-reported

Summary

Brazil's National Council of Justice runs Sinapses, a national catalogue where all AI models used or developed by the Brazilian judiciary must be registered, risk-classified and — for high-risk systems — subjected to periodic audits, with about 150 active models from 29 courts an

Key dimensions

Dimension	Score
Evidence of impact / measured public value	2/3
Transparency, fairness & accountability	3/3
Transferability / demonstrated replication	2/3
Scalability beyond pilot	3/3
Governance, capability & sustainability	3/3
