

SIRA — Disability-Led Digital Assessment Tool for Humanitarian Crises in Mozambique

Digital Inclusion · Good practice · Mozambique

Quality score: 72/100

Evidence strength: Strong

Summary

Mozambican disability-rights facilitators co-designed and led fielding of a screen-reader-accessible digital survey that assessed disability among displaced people in Cabo Delgado, finding prevalence far above standard estimates and informing the 2025 response plan.

Key dimensions

Dimension	Score
Innovation level	3/5
Sustainability (ongoing)	1/1
Evaluation evidence	0/1
Demonstrated reach	1/1
Documented learning	1/1
