

Slovenia's Statutory Registry of AI Systems in the Public Sector

AI in the Public Sector · Good practice · Slovenia

Quality score: 73/100

Evidence strength: Descriptive / self-reported

Summary

Slovenia's ZIUODHPUI law requires every public body to disclose the AI systems it uses via the SPOT portal into a public dataset, while civil-society group Danes je nov dan independently tracks what agencies fail to report.

Key dimensions

Dimension	Score
Evidence of impact / measured public value	1/3
Transparency, fairness & accountability	3/3
Transferability / demonstrated replication	2/3
Scalability beyond pilot	3/3
Governance, capability & sustainability	2/3

Evaluated by C-NAPSE
