

Spain's €140 Million National AI Programme to Cut Teachers' Administrative Burden (2026–2027)

AI in Education · Good practice · Spain

Quality score: 40/100

Evidence strength: Moderate

Summary

Spain's Ministry of Education is building a government-run AI assistant, backed by €140m, to cut teachers' paperwork and integrate with regional school platforms during 2026–2027 — though teaching unions say they were not consulted beforehand.

Key dimensions

Dimension	Score
Evidence of learning impact	0/3
Equity & inclusion	1/3
Transparency, ethics & data protection	1/3
