Talt — Copenhagen, Aarhus and Aalborg Test AI Speech-to-Text for Care Records in Denmark's AI Sandbox, Using Only Synthetic Data

AI in the Public Sector · Good practice · Denmark

Quality score: 60/100

Evidence strength: Moderate

Summary

Three Danish municipalities and Systematic tested AI dictation, summaries and categorisation for care records in 11 municipalities (2024–25). The AI sandbox found no clear legal basis to develop on real data, so all tests used synthetic citizens; ratings were mixed.

Key dimensions

Dimension	Score
Evidence of impact / measured public value	1/3
Transparency, fairness & accountability	3/3
Transferability / demonstrated replication	2/3
Scalability beyond pilot	1/3
Governance, capability & sustainability	2/3
