

Trade AI — Indonesia's Customs Pilot Flags Under- and Over-Invoicing at Tanjung Priok Port

AI in the Public Sector · Good practice · Indonesia

Quality score: 47/100

Evidence strength: Descriptive / self-reported

Summary

Indonesia's customs directorate piloted Trade AI at Tanjung Priok port, comparing import declarations against real-time market prices to flag under- and over-invoicing; the initial trial recovered Rp1.2 billion — a modest but real early result, not yet replicated elsewhere.

Key dimensions

Dimension	Score
Evidence of impact / measured public value	1/3
Transparency, fairness & accountability	1/3
Transferability / demonstrated replication	2/3
Scalability beyond pilot	1/3
Governance, capability & sustainability	2/3
