

TunapandaNET — A Community-Owned Wireless Network Bringing Digital Literacy to Kibera

Digital Inclusion · Good practice · Kenya

Quality score: 96/100

Evidence strength: Strong

Summary

TunapandaNET is a locally hosted wireless intranet built by Nairobi's Tunapanda Institute since 2015 to bring low-cost digital learning and literacy training to Kibera, one of Africa's largest informal settlements, now linking schools, youth centres and a women's centre.

Key dimensions

Dimension	Score
Innovation level	4/5
Sustainability (ongoing)	1/1
