Türkiye's Competition Authority and Public Procurement Authority (K■K) — an AI Cartel-Risk Screen for Public Tenders, Announced but Not Yet Evidenced

AI in the Public Sector · Good practice · Türkiye

Quality score: 13/100

Evidence strength: Cautionary / limited

Summary

Under a November 2024 protocol, Türkiye's competition authority runs procurement data from K■K through AI models to give tenders a cartel-risk score and flag bid-rigging. Its president describes it publicly, but no method, accuracy or resulting cases are published.

Key dimensions

Dimension	Score
Evidence of impact / measured public value	0/3
Transparency, fairness & accountability	0/3
Transferability / demonstrated replication	0/3
