

Turnitin AI writing detection

AI in Education · Good practice · United States of America

Quality score: 33/100

Evidence strength: Cautionary / limited

Summary

Widely deployed AI-writing detection — but documented false positives, bias against non-native English writers, and wrongful cheating accusations make it a cautionary case; even the vendor says it shouldn't be the sole basis for action.

Key dimensions

Dimension	Score
Equity & inclusion	0/3
Transparency, ethics & data protection	1/3
Teacher capability & pedagogy	1/3
Scalability & sustainability	3/3
Evidence of learning impact	0/3
