

UNICEF's Braillo 600 Embosser — Modernising Braille Textbook Production for Iran's Visually Impaired Students

Digital Inclusion · Good practice · Iran

Quality score: 68/100

Evidence strength: Descriptive / self-reported

Summary

In February 2025 UNICEF procured a Braillo 600 SR2 embosser for Iran's Ministry of Education and SEO, replacing two 35-year-old Norwegian machines and restoring braille textbook production for 7,145 students with visual disabilities nationwide.
