

USVI's Digital Equity Grant — Approved, Funded, Then Terminated Mid-Rollout

Digital Inclusion · Good practice · Virgin Islands (U.S.)

Quality score: 44/100

Evidence strength: Moderate

Summary

The U.S. Virgin Islands designed a \$2.1M federal digital-equity programme for STEM training, IT certification and English-language digital courses — then saw it terminated nationwide in May 2025, mid-rollout, while a separate \$27.1M broadband award continued.
