

UWV's Risicoscan Verwijtbare Werkloosheid — the Netherlands' Audited Unemployment Fraud-Risk Score

AI in the Public Sector · Good practice · Netherlands

Quality score: 53/100

Evidence strength: Quasi-experimental

Summary

UWV has screened unemployment-benefit claims with a risk-scoring algorithm since 2022. The Netherlands Court of Audit's 2025 review found flagged cases yield three times more confirmed fraud than random checks, but flagged unresolved IT-management risks.

Key dimensions

Dimension	Score
Evidence of impact / measured public value	2/3
Transparency, fairness & accountability	1/3
Transferability / demonstrated replication	2/3
Scalability beyond pilot	2/3
Governance, capability & sustainability	1/3
