UX4G — India's National Government Design System and Accessibility Widget, Used on 4,000+ Sites but Without an Independent Outcome Evaluation

Digital Inclusion · Good practice · India

Quality score: 72/100

Evidence strength: Strong

Summary

MeitY's UX4G gives Indian public bodies a free GIGW/WCAG 2.1 AA-targeted design system (v3.0), audit tools and an accessibility widget it says runs on 4,000+ government websites, with 52+ UX case studies — but reach is self-reported and no independent evaluation exists.

Key dimensions

Dimension	Score
Innovation level	3/5
Sustainability (ongoing)	1/1
Evaluation evidence	0/1
Demonstrated reach	1/1
Documented learning	1/1
