

Uzbekistan Tax Committee's Real-Time AI Risk-Scoring for Electronic VAT Invoices

AI in the Public Sector · Good practice · Uzbekistan

Quality score: 67/100

Evidence strength: Descriptive / self-reported

Summary

Uzbekistan's Tax Committee, with IMF support, built a real-time AI risk-scorer for mandatory e-invoices, red-flagging suspected fraud; its existing analytics already found 27 shell firms issuing 3.9 trillion UZS in fictitious invoices in just Q3 2025.

Key dimensions

Dimension	Score
Evidence of impact / measured public value	2/3
Transparency, fairness & accountability	2/3
Transferability / demonstrated replication	2/3
