

VIGINUM's D3lta — France's Open-Source AI Tool for Detecting Coordinated Disinformation

AI in the Public Sector · Good practice · France

Quality score: 93/100

Evidence strength: Observational / pre–post

Summary

Since 2021 France's VIGINUM service has tracked foreign disinformation networks with AI tools; in 2025 it open-sourced D3lta, an LLM-based detector for coordinated inauthentic content, after exposing 1,000+ bot accounts and 43 operations around the Paris Olympics.

Key dimensions

Dimension	Score
Evidence of impact / measured public value	2/3
Transparency, fairness & accountability	3/3
Transferability / demonstrated replication	3/3
Scalability beyond pilot	3/3
Governance, capability & sustainability	3/3
