

Zah'Ai: Offline-Capable AI Learning Tool for Girls in Madagascar's Pilot Lycées

AI in Education · Good practice · Madagascar

Quality score: 33/100

Evidence strength: Descriptive / self-reported

Summary

Madagascar's Ministry of National Education piloted 'Zah'Ai,' a phone/tablet/computer AI and self-directed-learning tool usable with or without internet, in lycées across three regions, alongside a 2025 study on why girls remain underrepresented in STEM and digital fields.

Key dimensions

Dimension	Score
Evidence of learning impact	0/3
Equity & inclusion	3/3
