

Alice — Brazil's AI system for detecting procurement fraud

AI in the Public Sector · Good practice · Brasil

Pontuação de qualidade: 80/100

Força da evidência: Observational / pre–post

Sumário

Alice, deployed by Brazil's CGU since 2015, uses NLP and RPA to screen federal procurement notices daily, reducing audit turnaround from 400 to 8 days and contributing to R\$9.7 billion in bids suspended or cancelled between 2019 and 2022.

Dimensões-chave

Dimensão	Pontuação
Evidence of impact / measured public value	3/3
